PROFESSIONAL SUMMARY

Developer with a .NET and React background. I have worked across web, desktop and backend, and I am currently part of the migration of an enterprise application to .NET 10.

TECH STACK

Backend & data

C#

.NET

SQL Server

MySQL

Frontend

React

Angular

TypeScript

JavaScript

HTML/CSS

WPF

Architecture

Modular monolith

MVC

REST APIs

WebSockets

DevOps

GitLab CI

Git

IIS Server

WORK EXPERIENCE

Full Stack Developer (.NET · React)

DEVOTEAM · May 2024 – Present

- **Migration to .NET 10** from .NET Framework 4.7: I lead 25-30 modules moving from MVC to a headless architecture (API + React).
- **Team of 5:** I coordinate the work and define the initial architecture (modular monolith).
- **CI/CD with GitLab CI:** I set up deployments and pipelines for the new version.
- **Billing module:** I built one of the most complex modules in the application.
- **AI agents:** integrated into the project's development workflow.

Full Stack Developer (Angular / .NET)

WE DO THE BEST SL · Jul 2023 – May 2024

- **Accounting system:** I started its modernisation in Angular (HTML/CSS) and built .NET endpoints to integrate it with the backend.
- **Python server:** collected BLE data from gym devices and relayed it in real time over WebSockets.
- **Desktop app in WPF:** visualised that activity in real time.

EDUCATION

Higher Technician in Multiplatform
Application Development

CES Imagen y Sonido · 2021–2023
